

Take advantage of available Q.HOME CORE warranties and labor reimbursement today!

At Qcells, we stand behind the quality and long-term reliability of our products. That's why we offer outstanding standard and extended warranties for comprehensive coverage of our Q.HOME CORE residential energy storage system – up to 15 years.

Q.HOME CORE Component	Standard Warranty	Extended Warranty
Q.VOLT Hybrid Inverter	12 years	15 years
Q.SAVE Battery System	12 years (70% of Nominal Energy)	15 years (60% of Nominal Energy)
Q.HOME HUB Backup Interface	12 years	15 years

Standard Warranty Qualifications

1. Sign up for Q.PARTNER and become a Q.HOME CORE certified installer.*
2. Register Q.HOME CORE on Qcells' Q.HOME CORE ESS Monitoring Portal to activate system.**
3. Standard 12-year warranties are applicable for systems activated on or after 10/23/23.

Extended Warranty Qualifications

1. Extended warranties are offered at an additional cost directly from Qcells as pre-paid transactions.
2. Extended warranty purchases are possible within 36 months of the standard warranty start date.
3. Systems must be registered via the Extended Warranty Registration form.

Labor Reimbursement Benefits for Installers

Don't miss out on our labor cost reimbursement benefits for qualifying product warranty claims! Register your projects on the Q.PARTNER portal within three months of the Permission to Operate (PTO) date and qualify for up to \$500 per project in labor cost reimbursement.

Product	Labor Cost Reimbursement Value	Coverage Term***
Q.HOME CORE Only	Up to \$250 per registered project	Up to 15 years
Qcells Module Only	Up to \$250 per registered project	Up to 30 years
Qcells Module+ Q.HOME CORE	Up to \$250 for each product type (up to \$500 per registered project)	Up to 30 years (module) Up to 15 years (Q.HOME CORE)

One-time labor reimbursement provided per product type (Q.HOME CORE/module) per project. Projects must have a system size less than or equal to 25kW. Projects may be combined with other brands/products, but the labor reimbursement is applicable to Qcells' residential products only.

*This step can be skipped if already a registered Q.PARTNER and certified Q.HOME CORE Installer.

**Standard 12-year warranty term begins on either (i) the date the Q.HOME CORE System or Component is commissioned at the original location of the Project or (ii) four months from the date the Q.HOME CORE System or Component is shipped from Qcells to Customer (if sold by Qcells directly to Customer) or Distributor (if sold by Qcells to Distributor), whichever date occurs first.

***Properly registered products are eligible for the labor cost reimbursement benefit on valid warranty claims during the entire warranty period of the relevant product warranty (normally up to 25 years)
