

Next Level Power

# Q.TRON

Q.TRON is Qcells' latest TOPCon N-type panel, incorporating cutting-edge and proprietary Q.ANTUM NEO Technology. With Q.TRON's outstanding performance, along with its exceptional power and efficiency, you can expect a quality product from USA's leading complete energy solutions provider.

## Low-Light Performance

Q.TRON panels with Q.ANTUM NEO Technology are able to generate power even in low-light environments. Performance is extended by one hour in the morning and evening.

## Physical Durability

With its industry-leading temperature coefficient, Q.TRON maintains its high performance even under high temperatures.

## Power & Efficiency

With a high efficiency up to 22.5% and yields up to 440Wp, Q.TRON is a suitable solution for limited spaces, including rooftops of residential, commercial and industrial buildings.

## Ease of Installation

With a thin and durable frame, Q.TRON provides ease of transportation and installation.

## BEST-in-Class Warranty

Extended 25-year product and performance warranties\* that reflect our commitment to quality products built to last. 30-year performance warranty option is available when financed with [EnFin](#).

\*Applicable to select products

## EnFin by Qcells Loan Financing

Q.TRON qualifies for loan financing offered by EnFin, the first in-house financing option offered by a market-leading module manufacturer.

## Labor Warranty Reimbursement

Receive labor warranty reimbursement through Qcells' Q.PARTNER program! Simply sign up for Q.PARTNER, register your projects and secure labor cost reimbursement benefits up to \$500 per project (\$250 max. solar panels, \$250 max. ESS)\*. Visit [qcellspartner.us](https://qcellspartner.us) today to become a Q.PARTNER!

### Labor Warranty Qualifications:

- Projects must be registered through Q.PARTNER within 3 months of PTO date.
- System must be less than or equivalent to 25kW.
- Project must be utilizing Qcells residential products only.

\*Labor costs incurred on valid Qcells claims only. Visit [qcellspartner.us/claim/how-it-works](https://qcellspartner.us/claim/how-it-works) for details.

## Qcells is committed to local manufacturing in the U.S. and revitalizing the domestic solar value chain.

Qcells is the number one module supplier in the country for both the residential and commercial segments, a leader in the utility sector and a proud creator of U.S. manufacturing jobs. Based in Dalton, Georgia, our solar module factory is the largest of its kind in the United States.

In January 2023, Qcells announced the largest investment in U.S. solar history to build the nation's only complete and sustainable solar supply chain.

Qcells will be manufacturing 3.3 GW of solar ingots, wafers, cells and finished panels at our new Cartersville facility, which is expected to be completed and operational by 2025.

- 5.1 GW solar module production currently
- 8.4 GW total production capacity by 2024
- 2,500 new jobs, 4,000+ total GA jobs
- \$2.8 billion investment in GA
- Qcells' Q.TRON BLK M-G2+ solar module, assembled in Dalton, GA, is an EPEAT registered product, meeting the Global Electronics Council's (GEC) stringent sustainability criteria
